June 4

Conrad

Dear Henry,

I'm enclosing the article from the Free Press which I had at the Board meeting as well as another one about the school lunch program which I thought you'd like to see. Lou Conrad has been an important member of the Eating Patterns Task Force since its beginning & has had the opportunity to influence what the children are eating at school. He has used the opportunity well.

Thank you very much for coming to Mankato. It's important to the old Board members to feel in touch with you & close to the project, & for the new members to meet you.

I appreciated Maury's calling me & thought the conversation was very helpful. Rick & I have since set up the calendar for the rest of the year & we hope that Maury will be able to come June 18 for the executive committee meeting & stay afterwards to talk more about the incorporation (I like your word "transfer") procedures. We want to propose a 3-hr or longer planning session of the Board in September to consider recommendations of your planning

team & also those of our endorsements committee which we're now in the process of organizing.

Caplen & I are meeting this afternoon to finalize our draft of the cookbook agreement & will submit it right away to the co-editors & hope to get it all wrapped up as soon as possible, particularly since after next week I'll be going back & forth to our lake cottage for the summer. As didn't seem to like the idea of trying to track me down, later, even though I assured him that "if I'm not here, I'll be there". Rick seems to think it's just fine - he's ready to pack up the family & their swimming suits & head north for a "meeting". (I think he was joking!)

Enjoyed seeing you, & hope your contacts with other physicians here went well. Their support is so important.

Cordially,

Nadine

P.S. I just learned that you headed right back to Minneapolis because you weren't feeling well. You mentioned your dinner the night before not being good & that you were tired. Sorry to know you were that much under the weather; we doubly appreciate your making the effort to come.
