Dear Maury:

You can imagine my disappointment when we found Russell inadvertently scheduled your coming on the days I sit on the NHLBI Advisory Council. MHHP very much needs your advice and I am grateful for your coming.

If you're here on the weekend after, it would be nice if you could drop in for a beer on our pleasant screen porch in Golden Valley right behind Prudential. Please give us a buzz. (377-9664)

The enclosed from Aramco on Red Sea Diving is probably nothing new to you, but it certainly whetted my appetite. A chance acquaintance on a Caribbean cruise twelve years ago put my name on the free subscription list for this magazine, which is quite fascinating.

I hear awfully good things about what you're doing down there. Here things move forward well and we're confident for the future. Best regards to Grethe.

Cordially,

Henry
