NOTE TO DR. HENRY BLACKBURN

Henry:

Got your note of September 21 requesting some description of national plans in the CVD educational area.

I am enclosing program descriptions for the National Cholesterol Education Program; the National High Blood Pressure Education Program; and the National Heart, Blood, and Lung Institute's Smoking Education Program. In addition, I have xeroxed some sections from the OPEC program plan which is now being discussed at the coordinating committee meetings.

You may wish to ignore my overall "Program Priorities and Directions for FY 90-91" which was my annual (and futile) plea to Claude not to add major programs without adding resources. Of more usefulness to you will be the "Progress Made in FY 89" and the "....Future Plans for FY 90-91" for the cholesterol, blood pressure, and smoking efforts.

Hope this helps.

Mike
