March 14, 1989

Dear Henry:

Thanks for your kind note  
from "the Grove".

I was so proud of you and  
your entire team at the site visit  
that I had no trouble convincing the  
others that you had assembled the best  
crew of cardiovascular epidemiologists in the  
world!

I'm still experiencing a lot of  
back pain and they are now going  
after me twice a day with a

2.

linear accelerator which should end  
next week and which is beginning  
to provide me with some relief.

But, I'm working every day and  
have only had to cancel one trip.

Bill Kennel thinks I'm crazy to keep  
it up, but it's what I enjoy, and  
do best, and so, why not?

Love to Stacy.

With affection

Joe

Dear Joe - It was  
so good of you to come  
back - yet again -  
to the MNS site visit.  
I'm grateful. The community  
owes much to your energy  
and thoughtfulness and  
generosity in one of the  
highest human faculties -  
scientific criticism.

Regards to Ruth -  
Jimmy
