Dr. Franz Halberg  
Laboratory of Medicine and Pathology  
Box 609 Mayo

Dear Franz:

I am off to Fukuoka today (my 65th birthday!) to garnish the installation of a former graduate student as President of the Japanese Circulation Society.

I have heard of your honor as correspondent to the French Academy of Medicine. That is most impressive, and I am sorry not to join the celebration.

*u*  
En tous cas, pour l'Academie, vous leur donnerez du poids!

Regards,

*Henry*
