candidates.

Dear Dr. Blackburn,

I am pleased to have received your offer of a faculty position in the Laboratory of Physiological Hygiene and accept the offer with enthusiasm. Both the work of the department and the Minnesota Community Prevention Program match my research and career interests and I look forward to their inherent challenges.

I should be able to complete the necessary transition work at Stanford by late October and plan to move to Minneapolis on November 1. Since I will be attending the American Public Health Association conference in Detroit, I plan to look for housing in Minneapolis on October 15 and 16, and would like to meet with you at that time if your schedule permits.

Again, I look forward to working with you and joining the department and community research group.

Sincerely,

Cheryl L. Perry
