

Mr. Dick Painter  
Page Two

Therefore, one or more of our staff will seek to visit with you in the upcoming summer period for further discussion and development together of optimal plans.

Once again, we are grateful for your thoughtful and warm reception. The opportunity is for a unique research and demonstration program, with Mankato organizing its potential for reducing heart attacks and strokes through an informed citizenry and its leadership.

Cordially yours,

Henry Blackburn, M.D.  
for the University Executive Committee  
Minnesota Community Prevention Program

HB:mb

*P.S. We too are please that  
we, and Mankato, should  
get "a piece of the pie"  
Please call me for any  
questions. Thanks -  
Jimmy B 373-3576*
