Dear Henry,

I happened to find the picture that we discussed and you asked for. The picture is from the North Karelian newspaper KARJALAN MAA and tells about the visit of the Finnish most eminent cardiologist prof. Halonen. The text reads:

"There came a gentleman from Helsinki who claimed that the North Karelia project is practically nonsense. But the fellow looked like this: prof. Pentti I. Halonen. Obviously he was unable to justify - due to personal reasons".

Best regards,

Pekka Puska

Tuli herra Helsingistä ja väitti koko Pohjois-Karjala projektin toiminnan suurinpiirtein turhaksi vouhotukseksi. Tämän näköinen mies oli asialla: professori Pentti I. Halonen. Taisi olla jäävi todistamaan.
