Dear Henry,

I always enjoy hearing your commentary on "News and Views in Cardiology" sponsored by Syntex Laboratories. In your most recent discussion regarding your lost credit card, I was struck by one minor point of curiosity. How did the credit card thief obtain the traveller's checks? Presumably with funds stolen from other unwary citizens?

I had occasion to go to the Granlibakken Inn for a recent meeting of the Publications Committee for the Cardiovascular Health Study (NHLBI). I thought about you and the wonderful two-week experience I had last year during the AHA Council on Epidemiology Seminar.

I look forward to seeing you at the national meetings.

Sincerely,

Julius M. Gardin, M.D.
Professor of Medicine
