Dear Henry,

Thanks for the all-two-brick on the joys of Tahoe. It only the waters were still as clear as when Mark Twain floated in them. But it is still very lovely.

I will be taking a vacation from the seminar this summer in order to take an extended backpacking trip. There is an off-trail route that leads over the King-Kern Divide into the upper basin that feeds the Kern River. I have never explored that area, & new routes makes it even more appealing.

However, I will be in S.D. & hope to see you there. Yes.

Warm regards to you & Strung.

Rick

Reck

Delighted for your trip. Way to go!
