Dr. Jeremiah Stamler  
Professor of Cardiology  
Northwestern University  
680 North Lake Shore Dr, Suite 1102  
Chicago, IL 60611

Dear Jerry:

You will be pleased to hear that both the American Heart Association CVD Epi Newsletter and Circulation will publish the History of the Council, Circulation a reduced version without appendices.

You may be interested also to hear that on this three month visit of Alessandro Menotti, he, David Jacobs and I have finally gotten around to resurrecting our work of many years ago on the ECG, largely frustrated at that time by inadequate numbers of ECG items and/or events. I have assigned myself the task of reviewing the literature on the ECG in prediction and would be grateful for a complete bibliography on articles published or in press on this subject from your Chicago and/or MRFIT studies. Many thanks.

Regards,

  
Henry Blackburn, MD  
Mayo Professor of Public Health
