Henry W. Blackburn, M.D.
Director, Laboratory of
Physiological Hygiene
School of Public Health
Stadium Gate 27
University of Minnesota
Minneapolis, Minnesota 55455

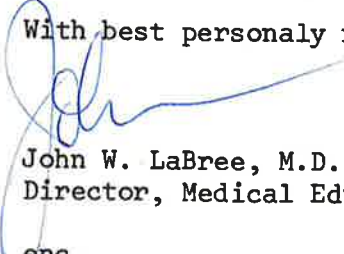

Dear Henry,

Your talk last Friday occasioned a great deal of interest and controversy among all of the staff and students. I am still hearing a lot of comments, all of which have been complimentary to your presentation.

In partial repayment for your excellent presentation, I hope you will accept this check from our staff, our token of a job very well done.

I hope that we can tap you again in the future. I am certain that our staff will be very interested to hear about your follow up.

With best personally regards,

John W. LaBree, M.D.
Director, Medical Education
