

4/22/91? R LUEPKER  
from HB

Luepker

file correct.

RL from HB  
RE Minorities AHA Committee

I don't know whether its emblematic of our Council, of the field, or my beginning detachment that no names spring to mind as the perfect ones. It is particularly obvious that we haven't done well with minorities. I have only a couple of semi-bright ideas for the Chair, and lots of ideas for membership.

Chair

Mary Jane Jesse -- knows the score and might be pleased to have a cause.

Chas. Francis, Harlem Hospital (We should join with other Councils?)

Rose Stamler--effective and dedicated

Martha Hill

Kathleen Dwyer is very bright and effective and needs a cause

Arlene Caggiula

C Perry

P Pirie

Members (in which seniority and diplomacy are more important than other criteria, I expect)

Ken Berge, Mayo Clinic (highly regarded in DC and at NHLBI)

E. Barrett-Connor

Virgil Brown

Sylvia Wassertheil-Smoller. Not convinced for Chair.

Bob Wallace

Bob Van Citters

Al Tyroler

M. Szklo

G Passamani

J. Okene

Henry McGill

Kiang Liu, Minority

Trudy Bush

Julie Buring

People with promise:

Donna Arnett. Conducts herself rather well

Grethe Tell, I dont have to tell you

Lorann Stallones, understands the issues

Lynn Rosenberg, has good independent views on women in research

Lori Mosca, Ann Arbor, Keep your eye on her, a real comer

Pam Clark

Mary Haan, good and tough

Gail Frank

**Black**

Rich Gillum is principled, and might come out for this issue?

Good ol' Julian Haywood. is solid

Eli Saunders is politically activist (too?)

J. Flack has the right ideas
