Dear Doris:

I am happy to hear that you are coming early to San Francisco and that you will be met for a few days of companionship with Jasenka. Stacy and I will arrive on the afternoon of Wednesday the 13th and plan to join you and the Stamlers for dinner that evening.

Please let me know your continued thoughts on people that you would like to sit around you at the Thursday night banquet and any other needs and ideas that occur to you to make the occasion a proper celebration of the life of Fred.

I increasingly miss Fred's support and enthusiastic responsiveness. I realize more and more as I continue with writing of both medical and personal memoirs that I was writing directly to Fred as the central person who would appreciate and understand. His loss has greatly reduced my motivation and pleasure in writing. Since your loss is many magnitudes greater than mine, I have increasing respect and admiration for your continuing to be positive about life.

We look forward to seeing you soon.

Cordially,

*Henry*
