Minneapolis, MN 55454

Dear Henry:

I heard an author say that jazz musicians do not see reality the way normal people do. As you may be able to see here, my powerful fan club in Minnesota has you cut off. The sensible thing for you would be to surrender and admit that Ancel took you down the garden path.

Regards,

George V. Mann, Sc.D., M.D.

Enclosure

P.S. I liked your comment on Olean. A predictable consequence of that product will be pneumonia like that seen in people who take mineral oil for laxation.

P.P.S. What will happen to Jerry now? Rose was the wind beneath his sails.
